GIRL'S DEATH IS STILL A MYSTERY.

BODY FOUND IN THE BRONX IS
NOT THAT OF MISS HAN-

BURY.

NEW YORK, April 15.—Mystery
surrounding the murder of a young
woman whose body was found in the
Bronx Saturday deepened today when
the identification of the body as that
of Miss Claudia Hansbury of Troy was
announced.

Despite the news from Troy, Raf-
faele Vitello, a contractor, charged with
the homicide, and Mrs. Bertha Wilson,
who, the police allege, said she in-
duced Miss Hansbury to the con-
tractor, were arraigned before a police
magistrate today.

Vitello was held without bail for
further examination, while Mrs. Wil-
son was held in \$500 bail as a material
witness. Vitello was arrested last night
after a fountain pen found near the
body had been identified, the police
say, as his.

LISTEN TO RANT OF SOCIOLOGISTS.

Scores Teachers of Theory in
Schools and Colleges.

Branches Off into Attack on
Chicago Stockyards.

Broke Faith with Packers in
Recent Investigation.

CHICAGO, April 15.—A majority
of the teachers of sociology in
schools and colleges are uniting for the
reason that their knowledge comes through
books, rather than practical expe-
rience, according to testimony given be-
fore the United States Commission on
Industrial Relations today by Prof. J. C.
Kennedy, teacher of economics at the
University of Chicago, and the
week's elected chairman of the Social-
ist faction.

Before coming to Chicago the wit-
ness was a teacher at Cornell and
identified himself as a practical
sociologist by stating that he made a
social survey of the packing industry
in 1910-11 for the University of Chi-
cago settlement.

His report of facts of the investiga-
tion was published in pamphlet form
in 1911. The manuscript was sub-
mitted to an editing committee of
the settlement, consisting of its di-
rectors. They declined to publish his
"interpretation and conclusions based
on facts," he said. In this he
thought they erred.

"Do the packers contribute to the
support of the University Settlement?"
asked Frank P. Walsh, chairman of the
commission.

"I think Armour & Co. pay the ex-
penses," head nurse of the de-
partment of the settlement," replied the
witness.

Answering another question, he
said: "I think that rich men and cor-
porations contribute to charities, set-
tlements and other so-called welfare
propositions to divert public attention
from the real evils of society."

Prof. Kennedy's survey was accom-
plished by permission of the packers,
who gave him access to their books
upon representations that the inquiry
was to be strictly scientific. He said
the editing committee of the settle-
ment, by previous agreement, the
manuscript was submitted, wrote to
the editing committee that the facts
established by the investigation were
accurate, but that his conclusions
which were, in effect, that the pack-
ers were at the bottom of all evils of
the existence of the unskilled labor at the
yards, and that the labor union of-
fered the only solution, went beyond
the bounds agreed to when the books
were opened to his inspection.

UNSKILLED LABOR.
Unskilled labor at the yards, Mr.
Kennedy said, at the beginning, was
English and German; now it is largely
Slavonic. He indicated the large
numbers of these unskilled laborers
had been lured to this country by the
promise of providing an over-supply
of labor. In any event, the supply
was always greater than the demand
and the workers receive an average
of \$10 to \$12 a week when they
steadily employed, which most of
them, he said, are paid. He used Ar-
mour and Company as an illustration.
he said, because J. Ogden Ar-
mour is to testify tomorrow at the
Armour plant, he said, were
typical.

The low wages carry in their train
unsanitary housing conditions, child
labor and a high mortality rate. Of
the deaths in the stock yards dis-
trict, he said, 38 per cent were due
to tuberculosis. The expenses of the
average unskilled worker's family, he
asserted, were shown by his investiga-
tion to run \$100 a year beyond abso-
lute requirements. These children and
wives were sent out to make up the
deficit or better taken into further
behold the air of already crowded
cottages, Mr. Kennedy declared.

Demand for Los Angeles badges
were incessant. A miniature badge
hung on a green ribbon, was the of-
ficial insignia. Two thousand were
given out in two hours. Fearing the
supply would run short orders were
given to stop issuing them.

Then the trouble began. One deter-
mined lady walked up to the infor-
mation booth and asked: "What are
these badges for?"

The police attendant ventured: "We
have no more to give out here. The
badges were produced."

Others not so determined spent five
minutes searching for the man
Central fast freight train at Sanborn

of bolts valued at \$50,000, and sped
away in auto trucks.

THE HEARING REGARDING CONDITIONS
among commercial telegraphers was
completed in the morning. T. J. Pow-
ers, manager of the operating-
room of the Chicago office of the Postal
Telegraph Company, refused to
chart the charges made against the company
by witnesses yesterday, and Wesley Rus-
sell, secretary-treasurer of the "Com-
mercial Telegraphers' Union," gave
further evidence for the telegraphers.
He sketched through his testimony, the
chairman having stated that the
facts in this case had been well es-
tablished by previous witnesses.

Mr. Walsh left for his home in
Kansas City tonight to be present to-
morrow at the funeral of William H.
Nelson, late proprietor of the Kansas
City Star.

AMALGAMATED SCALE CUT.
Reduction in Wages Announced in
American Sheet and Tin Plate Com-
pany at Pittsburgh.

PITTSBURGH (Pa.) April 15.—
Reductions in wages in the hot mill
and in the American Sheet and Tin Plate
Company, an important subsidiary of the
United States Steel Corporation, was
announced today.

The exact rate of reduction was not
made known, but it was stated by
steel authorities that it would average
between 8 and 12 per cent. It
affects all the company's twenty-nine
plants in Western Pennsylvania, Ohio
and West Virginia and comes close
to the heels of a similar reduction ac-
cepted by the Amalgamated Associa-
tion of Iron, Steel and Tin Workers
after the membership had defeated the
proposition twice.

Members of the Amalgamated Asso-
ciation have had no union lodges in
the American Sheet and Tin Plate Com-
pany's plants since 1909, their scale
being signed by independent com-
panies only.

Your Head and Stomach

Headache caused by a disturbed digestion is nearly always accompanied by pain in the stomach, belching of gas, vomiting and often by constipation. This sort of headache is generally located in the forehead and is not constant but comes and goes.

It does not come on immediately after eating but after the food has had time to ferment which it does because the digestive fluids that should take care of it are lacking, because the glands that secrete these fluids are weak, because the blood is failing to nourish these glands properly. Rich, red blood is the first essential to proper digestion and the digestive process cannot go on without it. When lack of nourishing blood causes fermentation and poisons are absorbed from the digestive tract, the pain in your head advises you of the fact. Dr. Williams' Pink Pills give the blood just the elements they need to correct this condition, which is a laxative, when required, form a perfect treatment for the headache of indigestion. Mention this paper and we will send you two little books on the diet and the proper use of a laxative. Address: Dr. Williams' Medicine Co., Schenectady, N.Y. FORMER MINISTER HELD AFTER RAID

A. E. RAMAY ARRESTED AT SAN JOSE ON COMPLAINT OF SCHOOL PRINCIPAL

(BY DIRECT WIRE—EXCLUSIVE DISPATCH) SAN JOSE, April 15.—A. E. Ramay, formerly a Methodist minister in South San Francisco and at one time superintendent of the G.T. Home at Vallejo, was arrested here tonight accused of molesting little girls of the Lowell school, by showing them obscene pictures. Ramay has been conducting a parlor here telling fortunes by "astrology" under the name of Prof. Ramandani. Complaints were made by Prof. R. A. Lee, principal of the school.

Officers from the Sheriff's office raided his rooms and found a grip containing a large quantity of obscene literature and post cards.

Ramay said he had been a Methodist pastor for twenty-three years, leaving the ministry at Tombstone, Ariz., because he lost faith in some of the tenets of the church. He served in many Southern California parishes.

PROMINENT MEN NAMED IN SUIT.

Allegation of Mismanagement of Mining Properties.

Litigation Involves Goldfield Merger Corporation.

Wingfield Nevada Interests are Also Under Fire.

ROBERTS AFFIDAVIT.

In this affidavit Dean Roberts declares good mining judgment should have caused operations to cease in the St. Ives shaft when no ore was struck at 1200 feet. Discussing the Velvet claim he asserts this was the merger company's best prospect, and declares he is unable to understand why the merger did not expend the comparatively small sum needed to work this property. Instead of putting approximately \$200,000 into the St. Ives shaft, which had produced nothing.

The Velvet claim was sold by the merger to the Jumbo Extension Company for \$10,000 and 175,000 shares of Jumbo stock. After the sale rich ore bodies were discovered and subsequently Jumbo stock jumped from \$5 cents to \$4 a share. Roberts says the Velvet claim was adjacent to all of the district's best prospects, and should have been developed by the merger company because of this, and for the further reason a quantity of ore had been struck before the sale.

Albert Burch, a high joint merger agent, who had been in charge of the Velvet claim, and this morning Henry Hoyt of counsel for the defendant merger and Deep Mines Company, and also for Whitmore and J. Ross Clark, co-defendants, asked the court to admit his oral testimony in rebuttal of certain of the plaintiff's expert affidavits. Hoyt's request was denied. Burch's testimony will now be presented in the form of an affidavit.

Bauman charged that the Goldfield Merger Mines Company, a Washington corporation, since it passed into the control of the Goldfield Consolidated Mining Company, one of the largest in Nevada, in 1911, has been managed and operated in fraud.

J. Ross Clark, brother of former United States Senator W. A. Clark of Montana, is one of the defendants. C. O. Whitmore of Los Angeles is the other. A general denial is made by the defendants, and a mass of controverting affidavits has been filed.

Bauman's argument.

In his argument, Bauman declared he would unfold what he characterized as one of the boldest operations of record in any court. Before adjournment at noon he traced the organization of the merger and its holding corporation, the Deep Mines Company; the acquisition of control of the merger by the defendant merger and Deep Mines Company; the sale of the Velvet claim to the Jumbo Extension Company. This was in line with the plaintiff's contention that the Consolidated company, of which George W. Wingfield is president, secured control of the merger company, and is now endeavoring to wreck it for the benefit of the defendant merger and Deep Mines Company. It is alleged by the plaintiff that Wingfield can acquire all of the Velvet claim by this method than by purchase.

The plaintiff, Lucy V. S. Ames, is holder of 5750 merger shares. Clark, Johanson of Seattle was appointed temporary receiver of the merger company by Judge E. E. Cushman, January 30 last.

A feature of Bauman's argument.

WOMEN ON JURIES.

Women are placed on an equality

with men for jury service in a bill

by Senator Butler, the center of long

legislative skirmishing, which the

Senate passed with 24 yeas and 14

nays.

Most of the debate was upon an

amendment offered by Duncan of

Butte, an opponent of the bill which

provided that any woman summoned

for jury service could excuse herself

if she did not want to serve. Chan-

dler said that "about 10 per

cent of the women are trying to

force jury service on the other 90

per cent, and I am willing to let

the 10 per cent do jury service if

they want to." Tyrrell of Oakland

declared the amendment virtually

killed and it was voted down by

thirty nays.

The vote on the bill was: Ben-

dick, Benson, Birdsell, Breed, Brown,

Carr, Carr, Finn, Flaherty, Hana, Jones,

Kehoe, Loebe, Lyon, Rush, Scott, Ste-

venson, Strohbecker, Strucke, Tuck-

OTHER BILLS.

Other bills now through both houses

are:

By Senator Benedict—Permitting

Los Angeles to change its irrigation

districts to water districts to facili-

tate the sale of its water bonds.

By Senator Benedict—Simplifying

civil procedure so as to shorten the

time in cases on appeal.

By Senator Flint—Prohibiting the

use of the parole or trial net in fish-

ing. This measure, which it cannot

conceive of enforcing, was passed

by the Assembly on recommendation

of the Senate Judiciary

Committee tonight. Judge Monroe

said he had tried all the divorce cases

in Los Angeles county for four years.

"The women are three to one

plaintiffs for divorce," he said, "but

that does not mean that women are

the greatest seekers of divorce. If

there are no children or property

rights to settle the men always let

the women get the divorce. That

spirit of gallantry prevails generally."

"Do you mean that women commit

more perjury than men?" asked Sen-

ator Campbell.

"I regret that there is a woman

present to hear me say it, but it is

true that there is three times as much

perjury among women," replied Judge

Monroe.

Judge Monroe advocated the bill,

"not simply to prevent fraud and col-

lusion, but for the protection of inno-

cent women who are being deceived

by unscrupulous men."

The bill was passed by the Assem-

bly on recommendation of the

Senate Judiciary Committee.

STATE FAIR PREMIUMS.

SMALL WONDER OF NO CHANCE.

REVELS WAYS OF CARD SHARP-
ERS IN TWO ARRESTS.

Detective, Pounding Little Mirror
Used in "the Game" Is Accused
by One Who Has Many Such Con-
trivances and Would "Double"
with Him—Another Caught.

Detective Zeigler was standing at
Main and First streets late yesterday
talking with a little mirror such as is
used by card sharps to detect their
deals when a stranger approached and
volunteered the information that he
was a "sucker" too.

"You are, are you? What's your
line?" said the detective.
"Cards and dice, mostly. I've got
some of those 'peeps' too, but here's
something that has them all beaten,"
said the stranger. He produced a lit-
tle mirror of one of the widely ad-
vertised brands and showed the de-
tective how he had inserted a mirror
in the bottom so that by laying the
tin on a card table he could see every
card dealt to an opposing player.

"My name's Brown, let's hitch up
and travel double," suggested Brown.
"No. Let's go over to the station
and talk things over," said Zeigler.
The search at the Central Police
station showed an arrangement of
gambling paraphernalia that had ap-
parently been seen long service. There
were sets of dice with double sides
and no aces; and all sorts of little mir-
rors the size of a dime, backed by
adhesive plaster, to fasten them on
chips or the palm of the hand. Brown
even had the bits of sand-
paper used by "sharps" to file their
fingers to make them more sensitive
to the "feel" of marked cards. Brown
said he is a barber and especially
anxious to get out of jail because he
had a job promised for tomorrow.

Another lot of implements of the
game's trade was gathered in by
Detectives Zeigler and Cline yesterday
when they searched the rooms that
had been occupied by C. E. Lowell,
arrested earlier in the day and also
booked on a charge of being a
sucker.

Along with the assortment of
marked card decks there were several
legions of brocade and silk, each
designed to hold a deck of cards that
might be substituted during the game.
Wearing all of these a card could
be dealt at least six marked decks abso-
lutely without the knowledge of the other
players. One elaborate "harness" was
so arranged that it could be operated
under pretense of fixing a cuff but
when the button was pressed, a
spring passing up the wearer's sleeve
and down to the wrist, quietly dropped
a new deck of cards from beneath the
wearer's vest and the contrivance
then waited in position to receive the
other deck.

It was found that Lowell had re-
sided at the Clark Hotel for the
last few days and at the Lankershim
register gave his address as San Francisco.
His street came through a square and
another gambler at the Clark Hotel
in which Lowell, after making threats
that were overheard by others, took
\$100 from his former partner. This
other man, whom the police have been
unable to find, is supposed to have
been connected with the old Marbury
gang of gamblers, who made their
headquarters in San Francisco.

OLD SMUGGLING BOAT RECALLED.

INSPECTORS CAPTURE TWO MEN
WHOM THEY BOUGHT FOR
MANY MONTHS.

Memories of the fast gasoline
hunch, Sampson II, that up to the
time of her abandonment outside the
breakwater, in October, 1911, had
unquestioned the proud title of the
greyhound of the Pacific, were re-
vived yesterday by the arrest at Lo-
mita by immigration inspectors Mil-
ler and Kuykendall, of John Chap-
man, and at Oxnard, by inspectors
Kuykendall and Barnard, of George
Boring, a son-in-law of Chapman, and
a former member of the Oxnard pe-
lone force, charged with smuggling
Chinese.

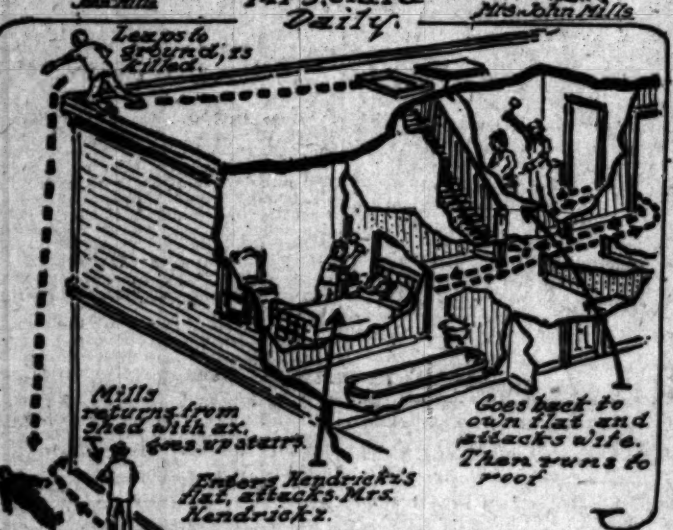

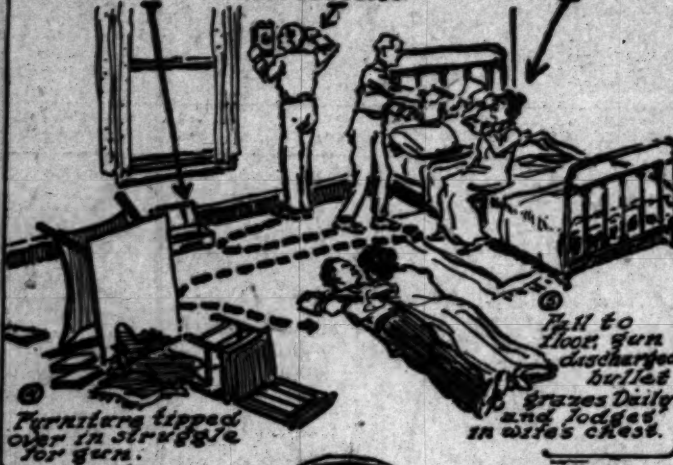

The prisoners were lodged in the
County Jail, and later were arraigned
before Commissioner William J. Hall
for their appearance on bond in \$2500 for
their appearance on April 15, when the pre-
liminary examination will be held. In
default of bail they were returned to
jail, where Chapman put in much of
his time curing the authorities, who
had succeeded in finally securing evi-
dence enough to warrant his arrest.
Chapman is one of the best known
residents of Lomita, and it is asserted
that he has accumulated a fortune
working the Chinese smuggling game.
His son-in-law, Boring, has long been
under suspicion. Until recently Bor-
ing lived at San Pedro.

The Sampson II was the fastest
boat that ever engaged in the smug-
gling enterprise on this coast. She
was forty-five feet long, only seven
feet wide, and rigged with a pair of
engines that allowed the creation and
maintenance of 150 horse power.
On October 12, 1911, the Sampson,
then owned by Chapman and Leland
Gregory, landed twenty Chinese con-
trabands in San Francisco Bay, and
got away with them. The ship was
discovered soon after the trick was
turned, and a lively chase down the
coast ensued, with the Sampson col-
lecting gasoline launches and all sorts of
water craft in the hunt, but the Samp-
son steamed ahead of them all, and
reaching San Pedro breakwater, was
abandoned, the crew making away
successfully. It is claimed that both
Chapman and Boring were on the
boat when the crew quit, Chap-
man making the trip up the coast to
San Francisco, and Boring going by
train from San Diego, to meet the
load at the northern terminus.
The Sampson was taken charge of
by the local customs officers, and an
action brought against her in the lo-
cal Federal Court, alleging libel for
violation of the navigation laws, in
not having been fitted out with a li-
cense before steaming into Mexican
waters for the load of Chinese con-
trabands. The boat was ordered sold,
and on April 7, 1912, she was
disposed of by Marshal Youngworth
to Clay Knox of Ventura for \$235.
Her engines were worth more than
that. But Knox did not enjoy the
boat long, for late in the summer she
was sunk off the coast at Ventura,
where she now lies on the floor of
the ocean.

wounds. It was found that the young-
est, a woman, although receiving only
one blow, suffered the worst injury.
The hatchet penetrated the skull and
into the brain, but she still had a
fighting chance for life last night.
The mother's fractured skull showed
no depression on the brain and she,
too, may possibly recover.

DAILY SHOOTING.

The Daily tragedy occurred two
hours later in the Sherman Hotel, Hill
and Fourth streets. Alarmed by the
sound of three shots in rapid suc-
cession, the clerk forced the door of the
room on the third floor, and found
Mrs. Daily lying on the bed and her
husband standing beside her. One of
the three bullets had gone wild, an-
other had wounded the head and the
third bullet had entered her side,
pampering downward into her chest.
This bullet was also the one which
wounded her husband, passing
through his arm and inflicting only a
superficial wound before it entered
the woman's side.
Both Mr. and Mrs. Daily, believ-
ing they were about to die, asked to
have their statements recorded. Mrs.
Daily told her story, but the husband
reconsidered, saying that he simply
wanted to hear what his wife said
and would agree to it. Mrs. Daily's
statement was to the effect that she
and her husband had quarreled be-
cause he objected to a telephone call
from Mrs. Anna Lomer, and the re-
sult was a fight when he threatened
to shoot her. She said she was strug-
gling with him for speaking harshly.
Then she said she grabbed an auto-
matic pistol and, telling her that
she was the pistol from him and three shots
were fired. Her story was broken by
frequent inquiries as to her husband's
condition and appeals to the hospital
attendants to bring him to her side.
Then she was taken to the operating-
room, where the surgeons traced the
bullet and repaired the internal damage.
In the meantime, her statement was
read to the husband. "That's about
how it happened as far as I can re-
member but I was just driven crazy
because she left me for that woman,"
Daily told the detectives. "I wouldn't
hurt her for the world and if that
woman would only leave us alone we
would be happy."

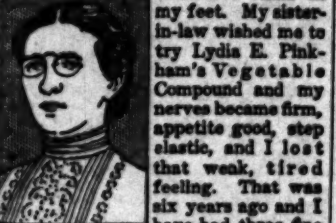

HIS STORY.

Daily, who was a hotel and saloon
proprietor in Seattle, recently
said later that Mrs. Lomer, whom he
knew only as "Anna," came between
him and his wife about two years ago
and since that time she has been try-
ing to break up his home. Three
weeks ago, he said, Mrs. Daily col-
lected \$1000 damages for a slight in-
jury and with her woman friend came
to Los Angeles. He followed last
Monday and met them in the Post-

A. F. KERAMER, 1574 Electric Avenue,
Lackawanna, N. Y.

The success of Lydia E. Pinkham's
Vegetable Compound, made from roots
and herbs, is unparalleled. It may be
used with perfect confidence by women
who suffer from displacements, inflamma-
tion, ulceration, tumors, irregularities,
periodic pains, backache, bearing-down
feeling, flatulency, indigestion, dizziness,
or nervous prostration. Lydia E. Pink-
ham's Vegetable Compound is the stand-
ard remedy for female ills.
Women who suffer from these dis-
tressing ills peculiar to their sex should
be convinced of the ability of Lydia E.
Pinkham's Vegetable Compound to re-
store their health by the many genuine
and truthful testimonials we are con-

the broken-hearted wife and the hor-
ror-stricken mother-in-law as the
principal actors. Mr. Polson denied
that he had partaken of any liquor
at all in Mrs. Scholz's room or that
he had complimented the young
blonde upon her "grace of form or
beauty of face." The contractor kept
his eyes glued on Mrs. Scholz while
on the stand. She glared at him;
likewise Mrs. Elma.

CAN'T SHAKE HIM.
Mr. Polson stuck to the story which
had been brought out on his direct
examination by Mr. Doran. Attorney
Mugrove, for the defense, was un-
able to lunge him.
"When you visited Mrs. Scholz the
first and second times, didn't you com-
ment on the beauty of her face
and form?" inquired Mr. Mugrove.

"I did not," replied Mr. Polson, with
heat.
"You lunched together on the visit
when you say you were robbed?"
"We did not. She prepared some
lunch and asked me to eat, but I de-
clined."
"You had something to drink, didn't
you?"
"I had a cup of tea. That was
all."
Mr. Mugrove asked the witness if
he didn't take a bottle of cocktails
to her apartments and he answered,
"most certainly not."
Mrs. Scholz answered yesterday to
her attorney that she will take the
witness stand this morning and tell a
much different story about the al-
leged robbery and the taking of Mr.
Polson's picture in four different pos-
itions with her. "My testimony will
not be sensational," said Mrs. Scholz.
"It will be startling. Wait and see if
it isn't. My mother is innocent and
so am I and I know the jury will be-
lieve me."
The case will go to the jury to-
day, if Judge Willis has his way.

The rich agricultural, horticultural and commercial resources of Antelope Valley were revealed by enthusiastic speakers at a banquet and open meeting of the Antelope Valley Improvement Association last evening at the Hotel Sherman, that was attended by 100 persons. The speakers were expected to present a large attendance was a surprise to the officers of the association and taken as an encouragement by the farmers and business men interested in developing a previously neglected district near Los Angeles.

The first serious attempt at the organization of the valley was made in 1880, when a group of men, who were interested in the valley, organized the Antelope Valley Improvement Association. The association was organized for the purpose of improving the valley and making it a more productive and profitable area. RUBE MARQUARD COMES BACK WITH NO-HIT GAME.

Only Three Men Got to First Base; Two of These Walked and One Got There on a Fielder's Error. Only Three Balls Went to the Outfield—Robert also had Wonderful Day.

(BY A. P. NIGHT WIRE.)

NEW YORK, April 15.—Rube Marquard pitched a no-hit game today and shut out the Brooklyn Nationals, 1 to 0. Rucker, the veteran left-hander of the Brooklyn, opposed the New Yorkers, and it was a great pitcher's battle. Only three men reached first base on Marquard, two on bases on balls and one on an error by Fletcher. Only three balls were hit to the outfield. Marquard also helped to win his own game by duty in the second run scored on Rucker.

Next to Marquard's pitching, Robert's all-around work was the feature. Until he fled out to Wheat in the seventh inning he had reached first base eight consecutive times, including yesterday's game.

WORLD CHAMPS LOSE ANOTHER.

(BY A. P. NIGHT WIRE.)

BOSTON, April 15.—Philadelphia defeated Boston again today, 7 to 1.

Hits bunched in two innings, together with errors by the Braves infield, accounted for all of the visitors' runs.

Mayer, the Philadelphia pitcher, was in fine form. Alternating surges of rain, snow and hail swirled about the players during the game.

BROOKLYN FEDS IN WILD GAME.

(BY A. P. NIGHT WIRE.)

BROOKLYN, April 15.—The Brooklyn Federals scored ten runs in the first inning against Newark today, defeating the visitors by 17 to 5.

Fifteen batters faced Whitehouse and Billiard in the big inning of the game, six hits, five passes, two errors, two steals, and a wild pitch accounting for the high total of runs. Toward the end Manager Marve used several substitutes. The hitting of McGee, Kain and Westerman were featured.

AT THE STAGE DOOR

George Roban, appearing in "The Sign of the Cross" at the Grand Opera House, has been invited by Manager Oliver Morosco to appear in a play at the Burbank, and may do so.

Mr. Roban's work in "The Sign of the Cross" is making us anxious to see him in a stage drama.

Fashion Note.
Mrs. George Roban, who is Edith McArthur on the screen, is a fashion fan, and therefore her opinion that the Los Angeles shops are quite as good as the New York ones is of value.

"We film actresses have to keep ahead of the fashions," she said, "and this takes no little brain engendering and careful calculation. What do I think is the tendency of the fashions? Well, they seem tending more and more to be practical. But real hoop-skirts? No, the country is too thickly populated now, there's no room in hips and subways."

"When the war is over Paris will wake up to find that she no longer sets the styles. Already America is beginning to wake up on the subject."

"The right from Paris, madam," used to make conversation for the sales girls, and some of them can't get out of the habit, but we all know it's just a comfortable lie."

Just for Kity.
Jack Left is writing a new play for Kity Gordon.

Home Man!
The great Alexander will give a special matinee for ladies only at the Mason Opera House today. Girls, here's your chance to find out "What Happened to Jones" and "Why Smith Left Home," and things like that.

Daisy to Come Back.
William H. Clifford is writing a new play for Daisy Farnum, entitled "The Man from God's Country," which will shortly be produced by Manager Oliver Morosco.

Max in New Films.
Max Vignola is to join the Rolfe company.

Greatest White Way.
Charlotte Greenwood and Sydney Gray are considering an offer to star in "Town Topics," a musical comedy to be put on in New York next season.

Spicy.
The Yiddish singers who will appear at the Morocco next Sunday are the unrepentant edition of their opera. It is said that some of them do not understand the language should bring their interpreter, as some of them operate.

Query: Are they sung in Yiddish because there are no Yiddish cops?

Erwin.
I stand corrected. The humiliating knowledge that I have for once made a mistake in this usually authentic column has been borne in upon me by the manager of the Yiddish company, who came to labor with me the other night for saying that the Willner-Sassat Company were all graduates of the Warsaw school of acting. From the linguistic insurrection with which the gentleman favored me I gleaned that each and every actor of the company had been compelled to work on several bona-fide first-class theaters, charging real admission money, before he was entitled to his diploma.

Good for Grace.
Grace Edmund, prima donna of one of the ill-fated Gaiety companies, has joined "The Only Girl" company in New York.

Real Town, by Heck!
We are to join Chicago and New York in having all night matinees. What an alibi that will be, too! It looks as if Miller's might have to keep a register and a special telephone operator, though.

Next Saturday night ushers in the first of these festivities, with a performance beginning at 12 o'clock. The management promises you will be able to get home before daylight.

Welcome.
Dick Ferris and Florence Stone will return to Los Angeles next Saturday.

Good-by Greenhouses.
Remember Mickey Maguire, who played the youth in Lester Fountain's "Wild Oats" at the Hippodrome? He has just left San Francisco for Mexico, where he is to join the Villa aviation corps. Maguire made his first flight at Dominguez. He took a fling at acting while his machine was being constructed, but declares "never again."

New Staff.
The World Film Corporation is now making one-reel films featuring starring Lew Fields, Richard Carle, Lulu Glaser, Marie Cahill, and other well-known comedians.

Helio, Nellie.
Nellie Filmore, appearing with Bluebird King at the Orpheum, playing the part of the maid, will be remembered as the notorious board-house keeper who handed us so many laughs in "The Country Boy."

Miss Filmore has done some picture work, and is considered one of the best character actresses in the business.

Portland Beats Venice.

(Continued from First Page.)

bagged only three hits, and all three were of the infield genus. Glademann and Purcell tried to start something in the ninth, with successive singles. Lish again tightened and there was nothing doing.

Walter McCredie unveiled another of his new men today in Carich, better known as Carich plunked out two hits and backed up the bases like a young gazelle.

Cack Henley was in the points for the Venetians, and Cack invited trouble at the beginning by walking Walt Doane, Speer's hit and run grounder put Doane on second and Stumpf scored him with a two-bagger into deep center. Bayless made a valiant effort to fish the spheroid, but it slipped out of his outstretched maw like hot butter off a fork. Carich took Stumpf with a single over short.

This two-run lead gave the Beavers confidence and there never was much doubt about the outcome. In fact, except for Stumpf's home run, the crowd of 1500 might have been fast asleep in the bright sunshine.

The Tigers scored in the fourth on two walks, and an infield bunt, and Purcell's sacrifice fly to Doane. The latter negotiated a pretty peg to the home plate, just a trifle too late to catch Kibberg.

Hoop was at short for the visitors, vice Joe Berger, victim of Charley-brownism in his arms and legs. The score:

Total Sales Record, 1,500,000 Shares, the Second Largest in Over a Year—Gains of from 2 to 5 Points are Recorded in Leaders, While Speculatives go Even Higher.

NEW YORK, April 15.—Although the volume of business was slightly under that of last Friday, today's stock market surpassed all records for considerably over a year in the strength and scope of its upward sweep. Over 200 separate and distinct issues were traded in, among these being a number of stocks whose long period of inactivity had all but caused them to be forgotten.

One of the reassuring features of the session was the comparative quietness of Bethlehem Steel, which remained in retirement after its early advance and closed with a one point loss. Not gains of 2 to 5 points were recorded in various stocks, while among inconspicuous specialties even sharp advances were noted.

Union Pacific, United States Steel and other speculative favorites reacted their high prices of the last few weeks.

In no part of the market was the return of active interest to Wall street found more direct reflection than in the phenomenal advance of several issues of the motor group. Several issues of the motor group suffered losses which were nominal in comparison with their gains of the last few weeks.

Less than a month ago memberships were offered at \$25,000, and in the final months of last year, when business was suspended because of the war, the price went very much under that figure.

Exchanges on Germany was a trifle stronger and reaction to London showed no material change in that quarter.

Americans were irregular in London. Canadian issues being lower, with a better demand for transportation.

Total sales of stock amounted to 1,500,000 shares.

Following some early irregularity the bond market reacted to London sales par value, aggregated \$4,000,000. United States coupon 2 1/2 declined 1/2 per cent. on call.

LOS ANGELES STOCK EXCHANGE.

Scattering Trades in Two Stocks

Keep Session from Being Complete

Yesterday's session on the Stock

Exchange was among the duller in

several months. No interest was shown

in any of the high priced issues and

but for scattering sales in Los Angeles

Investment and National Pacific, both

morning and afternoon calls would

have been blank. The former stock

COMMERCIAL.

What will the import of butter and

eggs amount to this year, not only

from foreign countries, but from out-

side States? This question is caus-

ing some agitation among the com-

mission dealers at this time. They

have stopped worrying about adverse

legislation on the storage question at

least. Import of eggs from the East

has already started in a fairly heavy

way, about 500 cases a day being

shipped from Kansas, Nebraska, and

other egg producing centers where

the market at this time is around 10

cents. Very little thought is given

to the fact that England is not

taking its full quota of butter.

Tens of thousands of pounds of butter

are being imported from the United

States. The dairy

industry is growing steadily and

shipping methods are improving right

along with the demand. The fact

GOV. HUNT LOSES
PARDON POWER.

Several Executions Likely

Soon in Arizona.

Warden of Penitentiary Says

There'll be None.

Another Democrat is Seeking

an Extra Session.

PHOENIX (AP)—Gov. Hunt at last is "up against it," and "legalized murder" may yet be known in this state within the term of his administration and against his protest.

Thus far he has succeeded in staying off the execution of a dozen criminals, whose deaths have been a peculiarly atrocious character and who have been confined, some of them for several years, in the state penitentiary, their death sentences delayed from time to time by executive order.

The Governor appealed to the people to sustain him in his attitude against capital punishment and was

down, the voters affirming the

of the Legislature that took the

of pardoning and reprieving power out

of the hands of the Governor and

placed it with a Board of Par-

dons and Pardons, a board outside of

the Attorney-General, the superin-

tendent of Public Instruction and a

third member by them to be ap-

pointed.

This board was now constituted com-

prised Atty.-Gen. Wiley E. Jones, Sen-

ator Samuel C. McKim, and Atty. Gen.

C. O. Case and Frank Trout of Phoenix, a

prominent Democrat and civil en-

gineer. The board started to exercise

its functions, but at the outset en-

countered adverse action on the part

of the Governor, who, to test the law

still further, in the face of the deci-

sion of the sovereign people, issued a

pardon to a convict, Knox Laird, as

well as extending a reprieve to five

convicted Mexican murderers.

The matter went to the courts, tem-

porarily on the petition of Laird for

release against Penitentiary Warden

Sims, who, though actively a

partisan of the Governor, naturally

refused release under the circumstances.

The District Court at Phoenix

sustained the new law and the

matter was taken promptly to the

State Supreme Court at Phoenix.

Yesterday this court made of record

a decision sustaining the inferior

court and upholding the legality of

the Board of Pardons law—that the

Governor has no power to issue

pardons or reprieves except upon recom-

mendation of the new board.

The decision was written by Chief Jus-

tice H. D. Ross, Justice Alfred Franklin

concurring. Justice D. L. Cunningham

dissented, holding that the power to

grant reprieves, commutations and

pardons can be taken from the Gov-

ernor only by amendment of the

State Constitution.

Thus far the Governor has not ex-

pressed himself upon the decision,

which must be extremely distasteful

to him, as the principal feature of his

administration has been his conser-

vation of the criminal classes, with

reference to reformation rather than

to punishment. Warden Sims has de-

clared that there will be no execu-

tions in the penitentiary while he is

in office. There can be no doubt that

on this point the Governor's course

is unpopular with the people at large,

especially among those who want

and cruel murders have been com-

mitted and where the verdict of ju-

stice and the recommendations of

courts calling for the death penalty

have been ignored by the Executive.

TUCSON (AP)—April 14.—At a

plain truths were told concerning

the government of Arizona and of

its several counties. A notably straight

talk was made by State Senator Mc-

Drachmann, who, though a Democrat,

failed to see much good in the present

Democratic administration. He said:

"The appropriation bill wanted by the

Governor was an outrage. It went be-

yond all bounds of reason. There was

a plan to give out a lot more jobs, dis-

puties of this and deputies of that, and

for no other reason than to build up a

political organization or machine. It

was outrageous." Mr. Drachmann

specifically referred to a number of in-

stances of all too lavish expenditures,

including a trip made by the Cor-

poration Commission to California, on

the State Taxpayers' Association bill

passed by the Legislature limiting ex-

pense accounts to 14 a day and the

Governor voted it. At the same ses-

sion, Supervisor Cochran, referring to

Arizona legislation, said: "Laws have

been passed, some of them by the

initiative, that keep capital out of

Arizona and cut the throat of labor,

though some of them were initiated

by representatives of labor. Some-

thing must be done to remedy these

conditions."
